We take a small portion of your equity to realise your idea and engineer it to a successful launch. In this model, we pair our responsibilities together for your products' success.

Revenue Sharing

A part development fee and part revenue-sharing deal to engineer and scale your digital solution. We earn when you earn

Success Fee

For futuristic solutions with a risk of success, we invest our technology prowess by absorbing a substantial part of the cost component 50 % against a success fee.
