What Makes Us Stand Apart

Technology Leadership
We love technology. We disrupt. We create. We do the new. Indus Net Labs is breeding ground for new use-case of technology. We train our talents through our very own Academy.

Flexibility
We are a customer centric, solution oriented business. We develop partnerships to create solid value for our clients. We are flexible in our engagement model, delivery process & pricing model to deliver top value to our clients.

Agile by Design
We are the small big company. We have retained our agility through our unique company culture and a flat organizational structure.

System Integrator for the Digital Age
Integration of technology, marketing and innovation.

Full Service Digital
We do everything digital under one roof. This enables total ownership of project through single point of contact. Tighter integration among various components ensure superior quality and timely delivery.

Born Digital
We were born digital two decades back. We live a digital life, hence digital comes naturally to us!

Culture of Innovation
We innovate everyday and come up with innovative solutions to solve your business problems. A culture of challenging the status quo ensures that our clients outsmart the industry.

Enterprise Grade
Successful track record of delivering mission critical, scalable, digital innovation for global enterprises

Ageas –
The Journey of a Decade

INDUS NET®
TECHNOLOGIES

https://youtu.be/u9C-P7xvndo

PORTFOLIO

A select few projects are listed in this portfolio to showcase our full-stack development capabilities and versatility.

Ageas Insurance Policy Management Solution

A decade old partnership, with multiple digital transformation projects across direct, broker and partner channels that leverage the transformative power of digital technology to innovate, bring new products to market, improve customer experience, enhance internal collaboration, provide technology support to retail partners and reduce time-to-market for this award winning UK based Insurance major.

Key Features

Policy Administration module helps the client company
- To administer all aspects of online quote and buy
- Payment and initiation of new policies
- Management of mid-term managements (MTAs)
- Renewals and cancellations

Policy Management module helps
- Track and manage payments, reimbursements, commissions, etc.
- Captures and reports transactions real-time
- Manage client accounts
- Inbuilt Document Management System (DMS)
- Create, store and dispatch template-based policy documents and emails to customers and others

Central Action Management solution helped
- To reduce operational costs and optimize performance
- Smooth relationship with distribution channels such as brokers, agencies and agents
- Instant access to real-time data and analytics
- Reduce Selling lifecycle
- Easily manage agents' credentials to ensure regulatory compliance
- Helped to cross-sell, up-sell and retain customers

INDUS NET® TECHNOLOGIES

Helping consumers buy insurance policies directly through B2C portal

The customer web portal (B2C ancillary) lets customers to engage in online quote and buy, and get their policies issued without intermediaries in a safe and secure environment.

Key Features

- *Auto documentation process*
- *Shorten verification process*
- *Premium calculation processes*
- *Option to purchase policies quickly and seamlessly*
- 3D security verification for card payment system which is PCIDSS compliant

Agents and brokers can manage customer accounts better, thanks to the B2B portal

An ancillary responsive B2B portal that helps agents, brokers and insurance agencies to manage customer accounts automatically & effortlessly, helps them to provide customer care through a call center-specific module within the app.

Key Features

- *Directly login and access customer data*
- *Easy calculation of Premiums*
- *In-built rate matrix for policy purchase*

Technology Stack

- *PHP and MySQL*

INDUS NET® TECHNOLOGIES

Sharekhan **Website Revamped**
by BNP PARIBAS

Completely transformed the existing web pages, used simplistic design for the excellent user experience and seamless flow with respect to the existing functionality, converted pages to HTML and made a clean, easy-to-use on a small mobile screen, website that enables engagement.

Key Features

- *Indus Net Technologies used AngularJS framework to build pages in HTML, and revamp the existing website.*
- *Using AngularJS framework helped to redesign the projects quickly, build pages and adopt design recommendations made by Sharekhan's representatives.*
- *HTML was the default template language, and we ensured that the web app was clean and minimalist.*
- *We ensured that redesigning and revamping of the website did not hamper business transactions on the main website.*
- *Sharekhan's new website is viewed clearly across devices of different screen sizes.*

We have also revamped the design of their mobile Application "Share Mobile"

AXIS BANK — Corporate Banking App
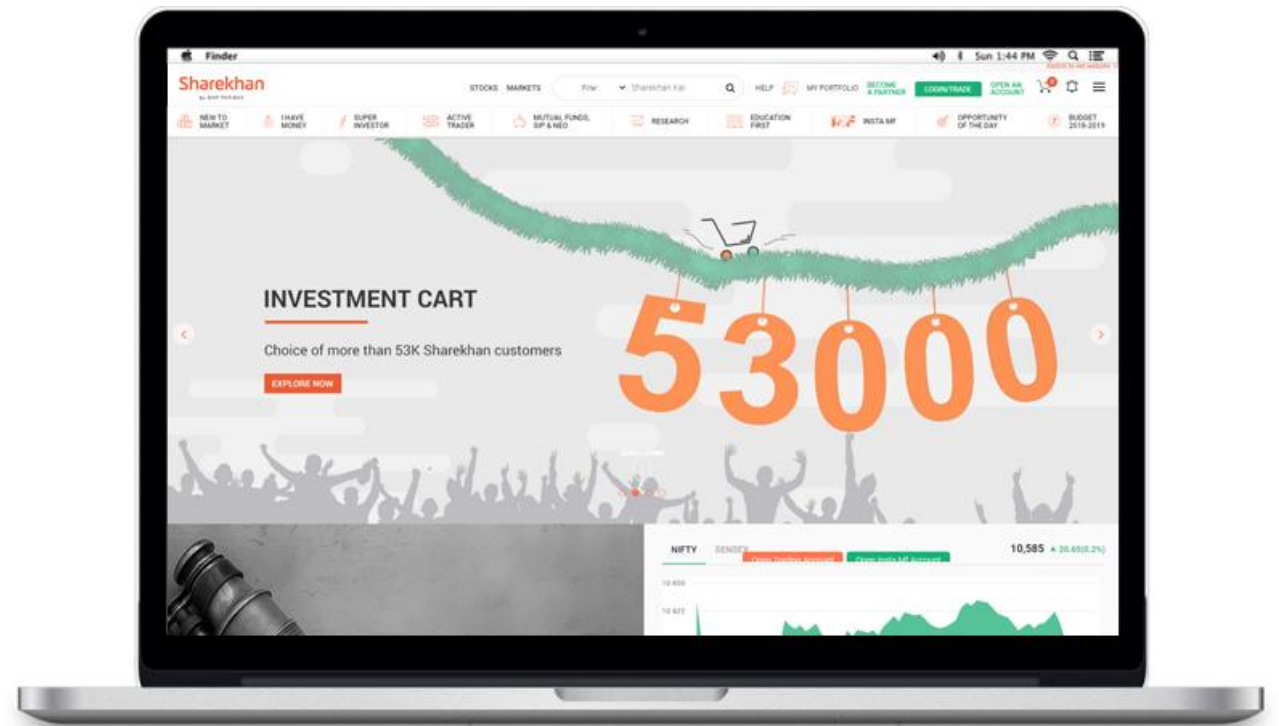

An online banking app for corporate clients, for enabling transactions and detailed reporting. A fast and efficient product that provides unique banking experience from India's third largest private bank.

Key Features

- *Secured registration*
- *Graphical summary report*
- *Detailed transaction history*
- *Instant balance & statement enquiry*
- *Easy remission management*

Technology Stack

- *iOS & Android app*
- *Custom Java back-end admin*
- *Linked with Oracle database using middleware*

INDUS NET® TECHNOLOGIES

EZ Takaful Medical Insurance App
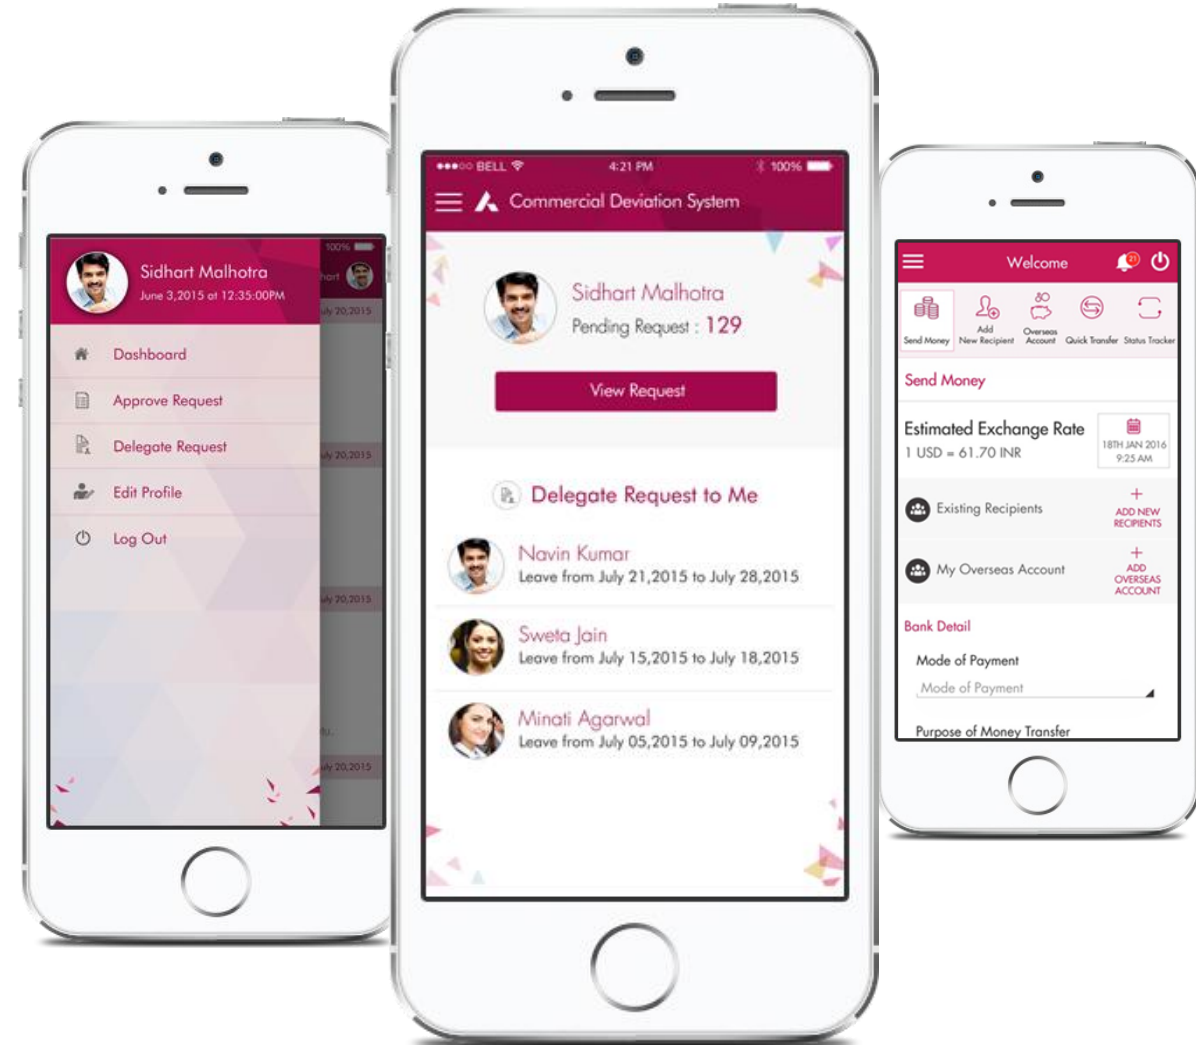

An App for Islamic Insurance to provide a simple, affordable protection platform for users in keeping with the consent of Islamic Shariah law. A useful app to keep track of monthly donation of the users and their claims.

Key Features

- *Secure register plan for renewal or enrol to the new Insurance coverage plan*
- *Policy details with the coverage schedule*
- *Guide for coverage planning*
- *FAQ section*
- *Lead capturing platform*
- *Offers/Promotions notifications*
- *Bi-lingual*

Technology Stack

- *iOS & Android version of the app development for both phone & tablets.*

Delivered the business-to-business application for policy creation, policy management, mid-term-adjustment, and customer support for Insurance partnership between Ageas Insurance and Tesco Bank.

Key Features

- *Product details*
- *Quick quote and buy*
- *Easy payment option*
- *Billing account details*
- *Insured trip details and policy summary*
- *Travel insurance alert*

Technology Stack

- *iOS & Android app*
- *Integration with existing website back-end*
- *Integration with existing website database*

info@indusnet.co.in / www.indusnet.co.in

INDUS NET® TECHNOLOGIES
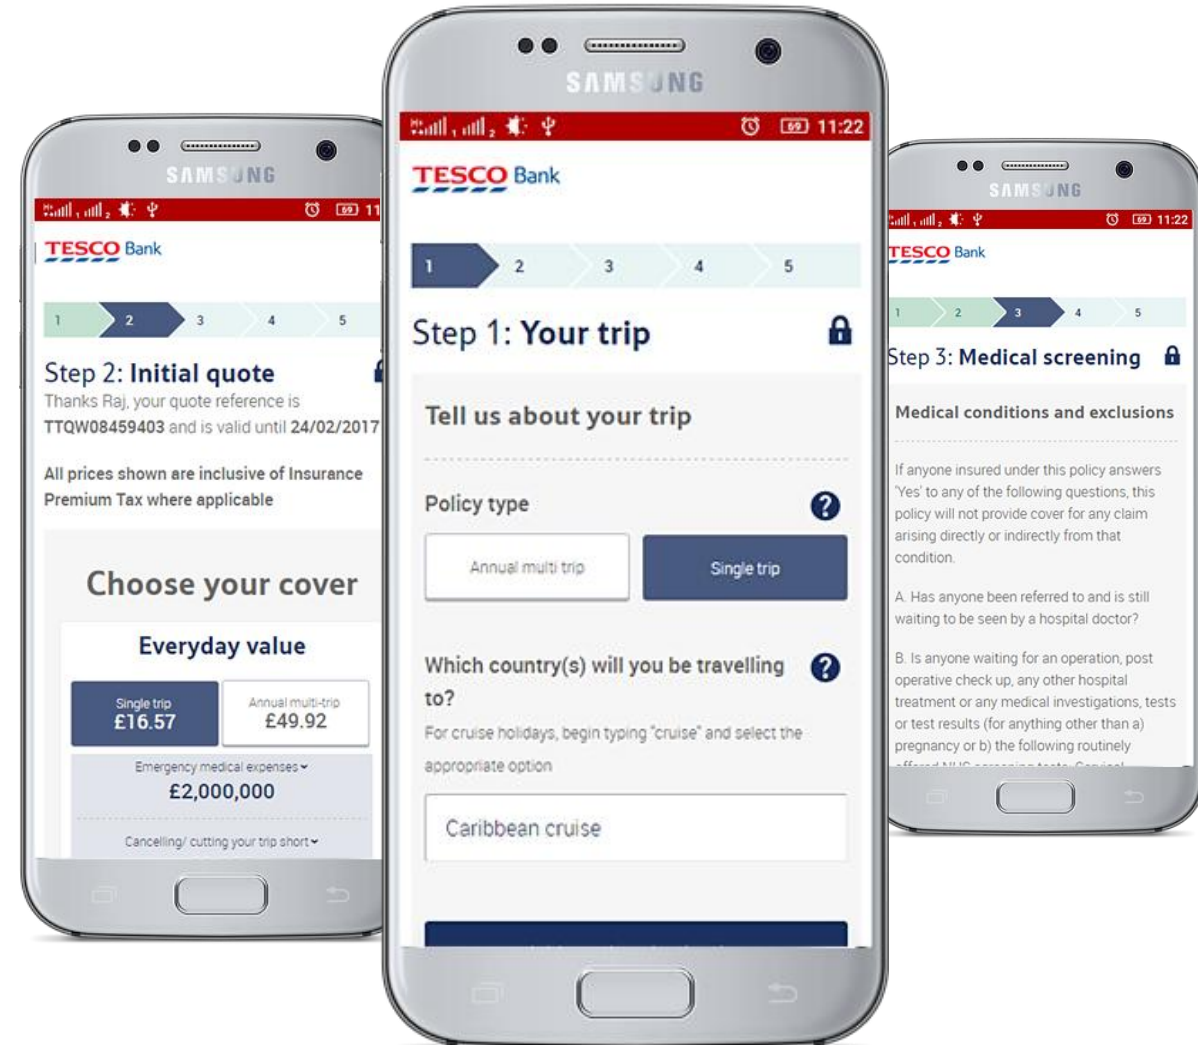

We also developed a responsive
website for end-users that allows them
to get instant quotes and lets them buy
the policy on the fly.

Key Features

- *Product Quick quote and buy*
- *Policy and MTA management*
- *Easy card payment option*
- *Billing account details*
- *Insured trip details and policy summary*
- *Travel insurance alert*
- *Responsive design for better accessibility in Mobile and portable devices*

## Technology Stack

- *iOS PHP 7.0 and MySQL, Ajax, Node.js, JavaScript, JQuery, HTML5, Smarty*
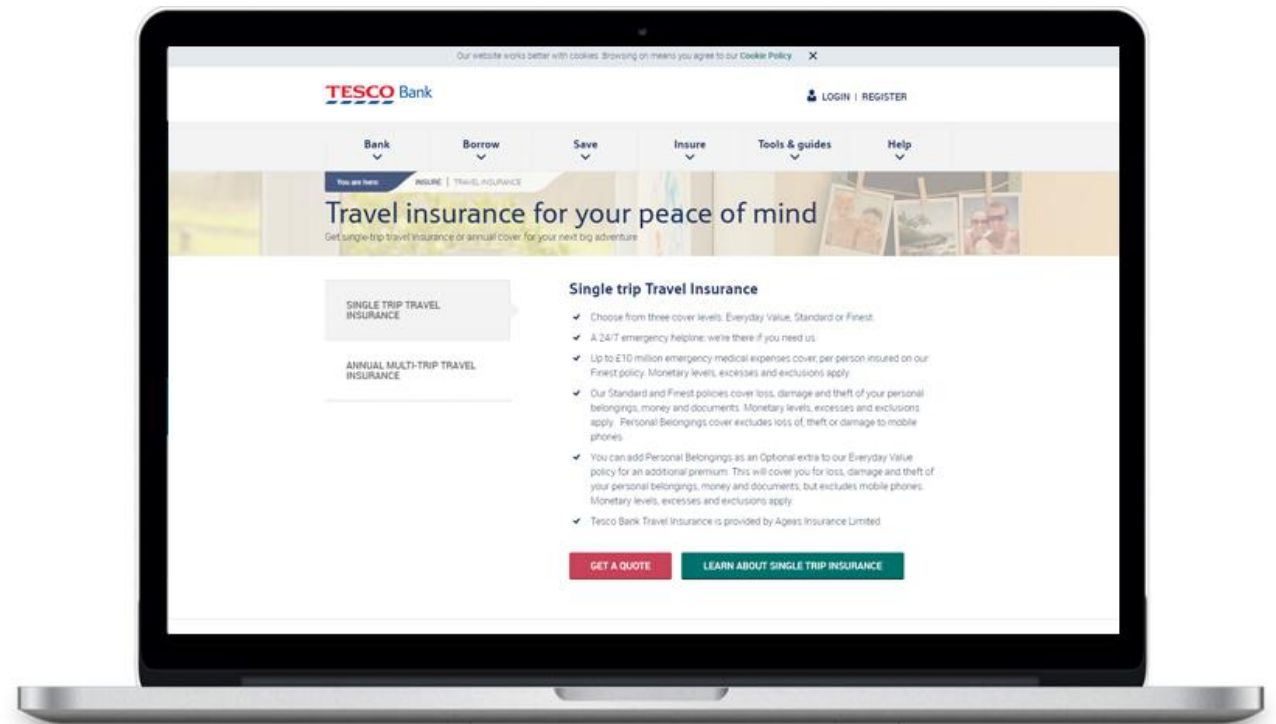

A prospect and customer engagement app with corporate and product info about SBI General Insurance. It has several self-service functionalities, like ability to generate instant quote and initiate the claim process.

Key Features

- *Detailed listing of products and services*
- *Company branch locator*
- *Cashless garage locator*
- *Cashless hospital locator*
- *SOS button to connect with near /dear ones in case of emergency*
- *Intimate a claim instantly*
- *Health tips*

Technology Stack

- *iOS & Android app*
- *Integration with existing website back-end*
- *Integration with existing website database*
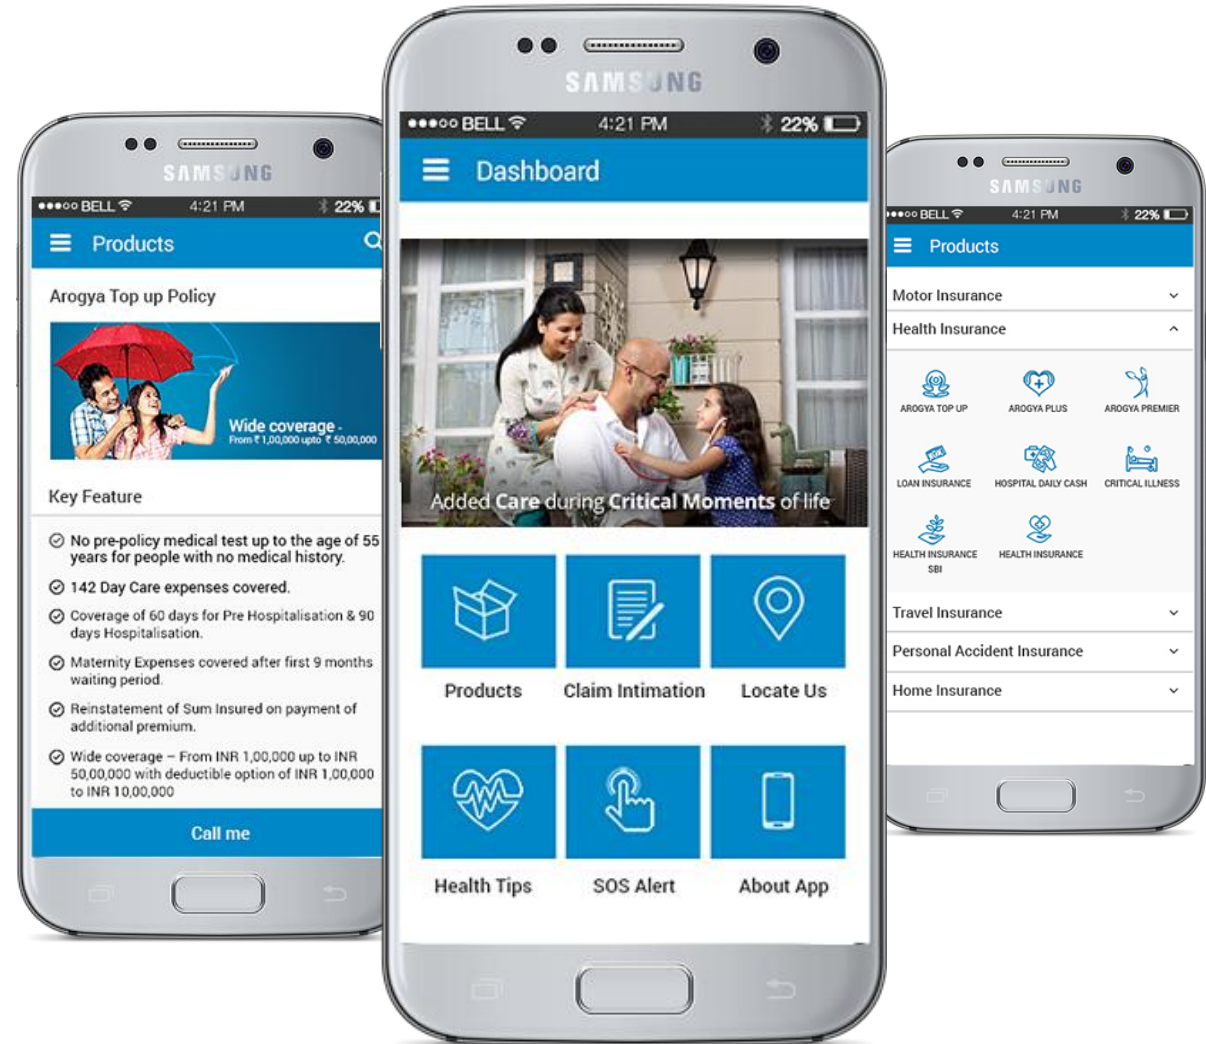

With the constant change in the Insurance digital space and the increased business focus of SBI General on the digital platform, a revamp of the website, including the transaction pages, is required. The new website has a high level of inter-activeness also it will be responsive in nature which will help users to access the website from multiple types of devices with multiple screens resolution. The website has multilingual support for English and Hindi. Indus Net, along with design & development of the website will also provide support & maintenance.

Key Features

- *Engage with customers and prospects over the web*
- *Provide corporate and product information*
- *Offer self-service to customers to generate quotes instantly and initiate claim process*
- *API integration*
- *Lead capturing option*

Technology Stack

- *Drupal, MongoDB, PhP*

# IndusInd Bank — Forex Transactions App Development
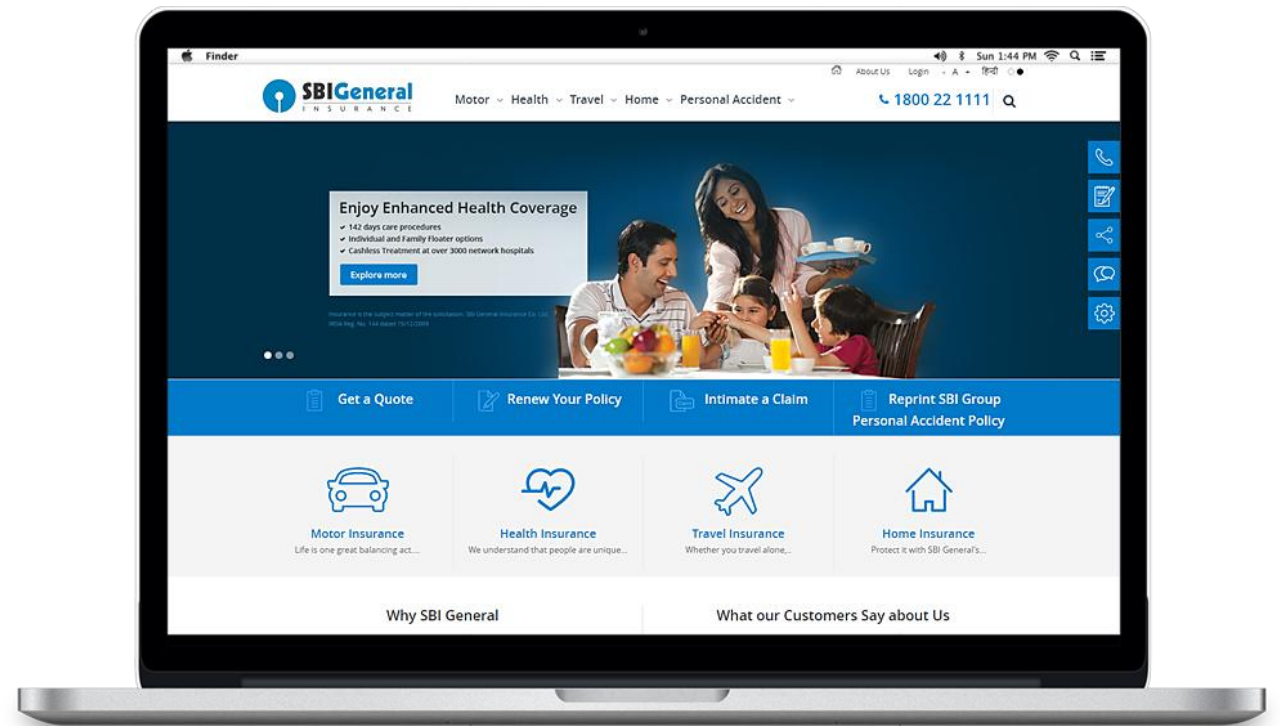

A holistic application to buy and sell foreign exchange, converts currency, performs outward remittances, and uses a multi-currency Forex card.

Key Features

- *Ability to buy and sell foreign exchange*
- *Remit money*
- *Buy Forex card and reload the same*
- *An easy-to-use interface*
- *Quick loading and responsive environment*

Technology Stack

- *.NET Framework*
- *HTML 5*
- *CSS3*
- *JQuery*
- *JavaScript libraries*
- *Central database: MsSQL*

IndusInd Bank — Responsive Web Portal for Instant Credit Card Approvals
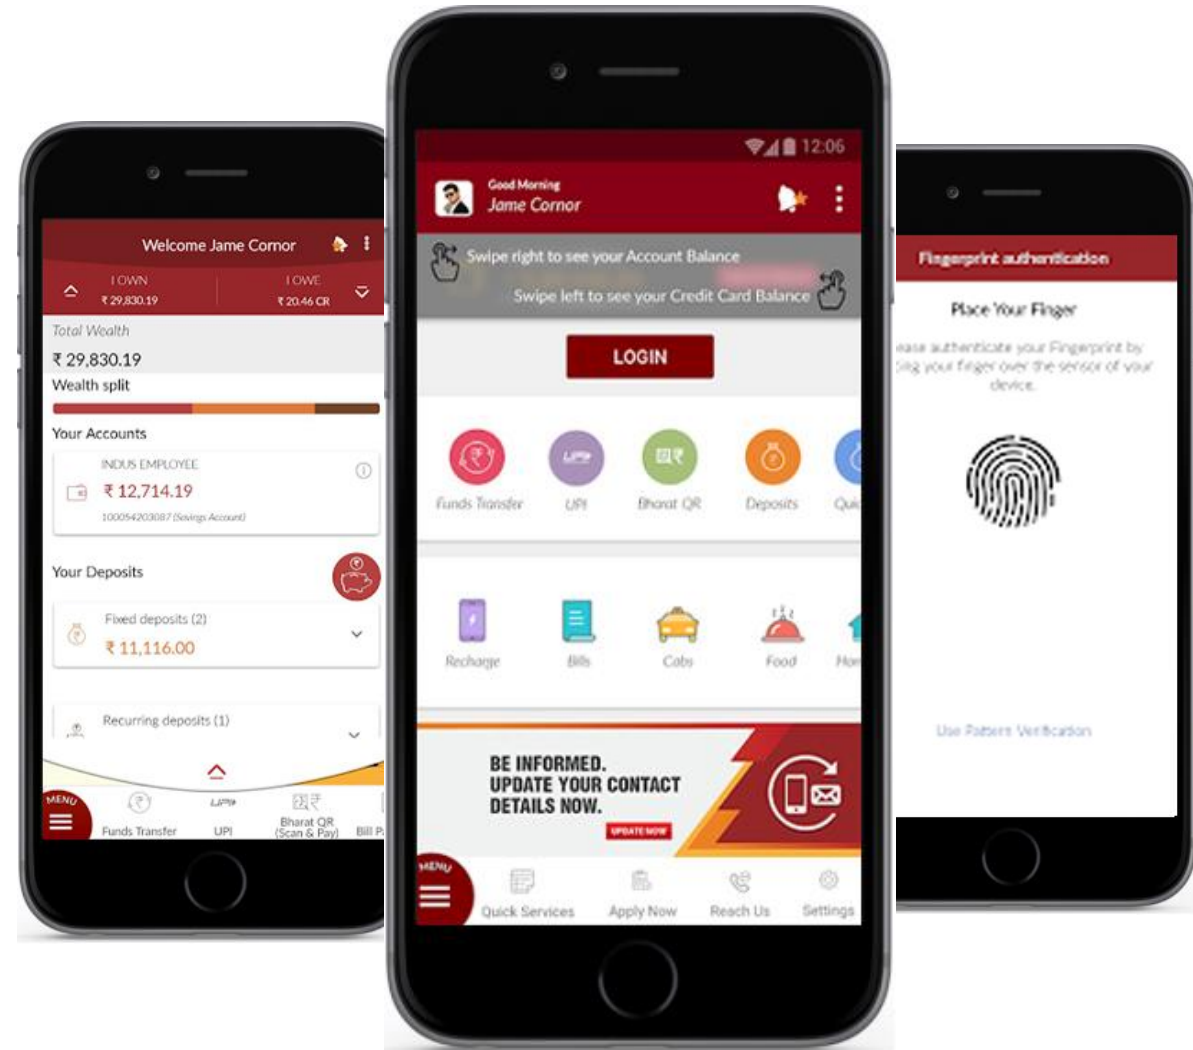

A credit card application system for pre-approved customers through an easy-to-use, quick & clean online interface with minimalist design & robust security, which is connected to their enterprise system.

Key Features

- Instant apply & approval for Credit Cards
- Easy-to-view across devices
- Quick & clean UI/UX
- Moderately fresh and lively design
- Use secure connections and VPN for data security

Technology Stack

- .NET Framework
- HTML 5
- CSS 3
- JQuery
- JavaScript Libraries
- MsSQL

IndusInd Bank

info@indusnet.co.in / www.indusnet.co.in

INDUS NET®
TECHNOLOGIES
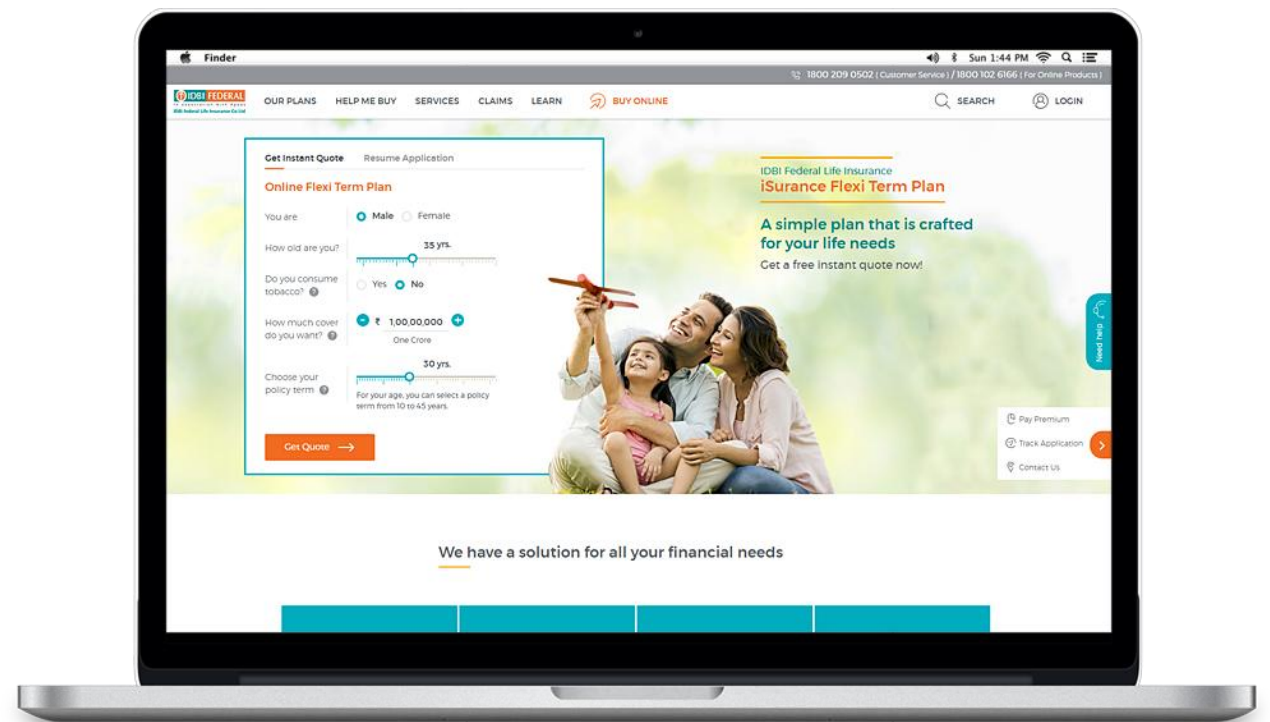

iSurance web platform for IDBI federal,
provides customers life cover and
helps build wealth over the long term.

Key Features

- *Income slab, premium rates, API details and life term of new products*
- *Premium calculator*
- *Process optimization for customers*
- *Redefined content management*
- *Online booking for Agents/ Advisors*
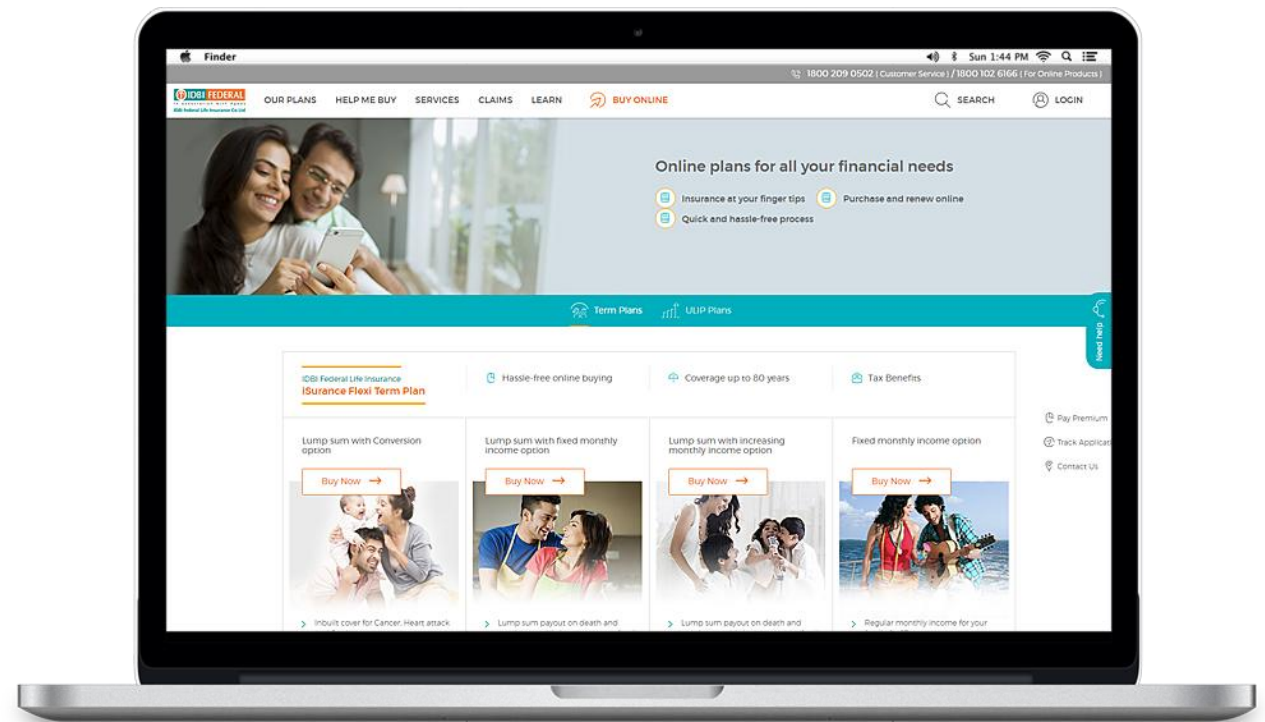

INT developed the online Wealth Gain Policy for IDBI Federal. The product is an addition to the existing online iSurance Flexi term product.

We built the four sections architecture - Home page, band below the current iSurance Flexi Term quote banner Buy online; there is a new section for Wealth Gain Policy Plan in a tab (Savings Plans). iSurance Flexi Term falls in the Term Plans tab (reference).

Key Features

- *In Our plans>Online plans and our plans>Savings plans there is a card for Wealth Gain plan. This leads the user to the Product page of Wealth Gain plan (https://www.idbifederal.com/insurance-plans/ulip-plans/wealth-gain-insurance-plan). There, 'Send me an advisor' button will be replaced with 'Buy Online'.*
- *Once, user clicks on Buy Online, he gets is directed to the Wealth Gain landing page.*
- *Landing page will be accessed through emails / SEM campaigns.*

info@indusnet.co.in / www.indusnet.co.in

INDUS NET® TECHNOLOGIES
PaYtm App Testing for largest Indian M-Wallet

India's largest mobile payment service platform & now a payment bank relied on us for testing & QA of their system, from the very initial days of their start-up journey.

Demonstrated the concept of Central Energy Efficiency Data Repository (CEEDR), framework using which Federal agencies can track the effectiveness of design and implementation of Industrial Energy Efficiency Policy.

Key Features

- *Data repository of the KPIs including production and energy parameters (operational parameters)*
- *Benchmarking the performance of machinery*
- *Technical gap analysis*
- *EnView for Textile was used as Energy Information management analytics system (EIMAS) which fed information to CEEDR*

Technology Stack

- PHP
- MySQL
- AJAX
- jQuery
- HTML
- CSS

Pilot System Development
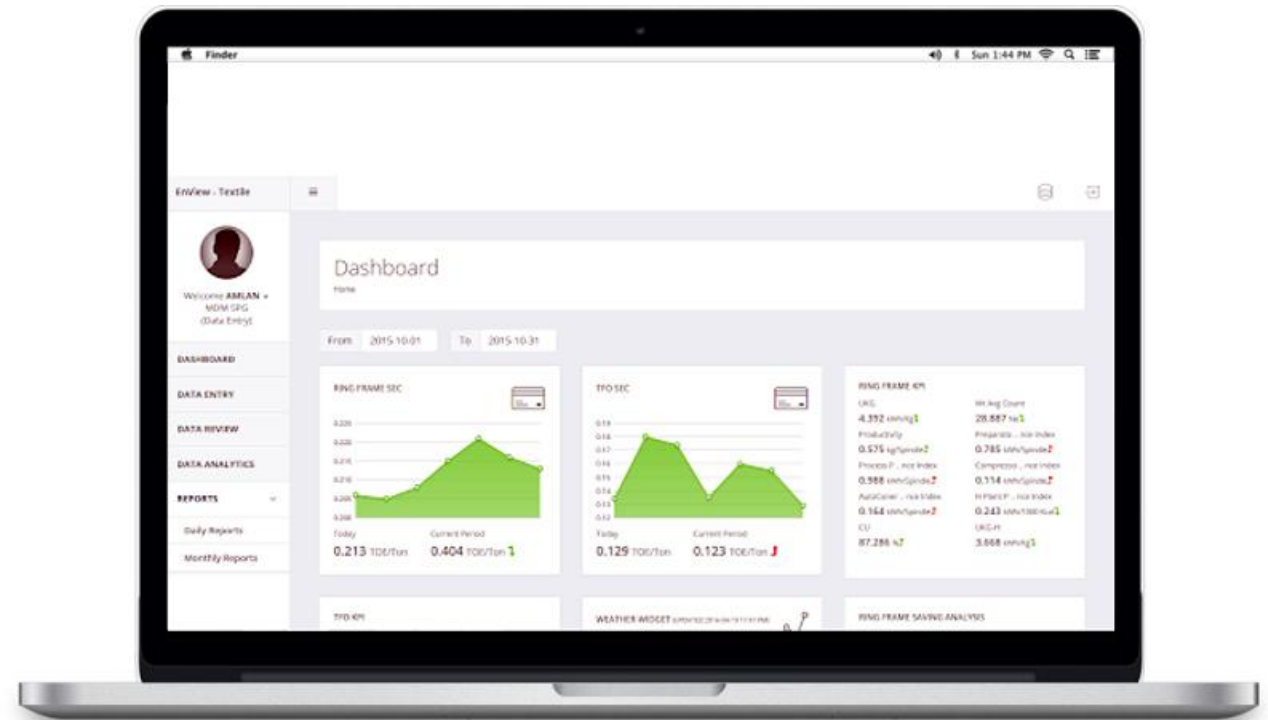

Developed an integrated pilot system for Data Collection, Analysis & Reporting, and Monitoring of Cleaner Production projects under PACT (Partnership for Cleaner Textile) programme in 2016-17, used by 6 textile units in 4 countries in Asia.

Key Features

- *Flexibility to choose parameters with respect to which KPIs should be calculated*
- *Integrated dashboard with KPI's to track Progress of the Project.*
- *Systems generated excel based reports with KPI summary*
- *Cluster Dashboards, easy to compare progress of participating textile units*
- *User specific reports sharing & multiple role allocation*

Technology Stack

- PHP
- MySQL
- AJAX
- jQuery
- HTML
- CSS

Energy Efficiency Assessment tool Development
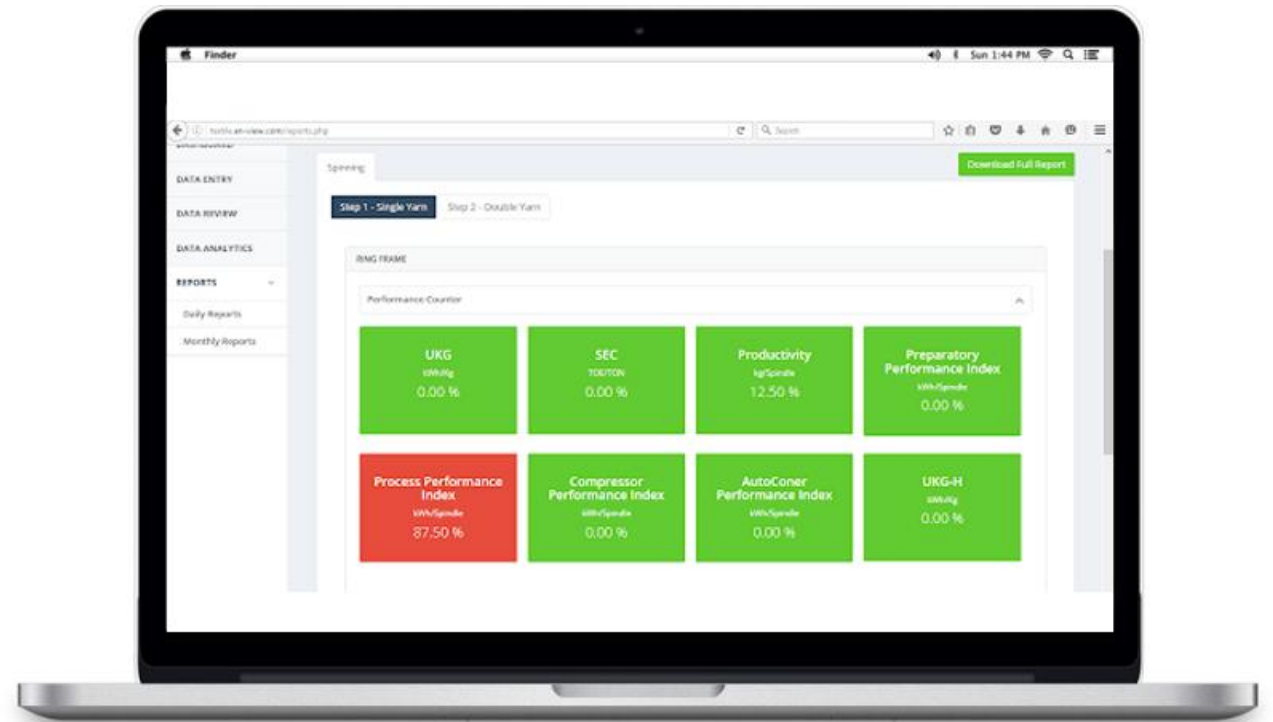

Designed & developed an Energy Efficiency Assessment tool for SIDBI, to help MSME units to identify the Energy Efficiency Measures; aid Consultants/Financial Institutions to know which areas and what measures to focus on while suggesting Energy Efficiency Measures. It's a Digital Energy Efficiency data repository of the projects undertaken by MSME units, the tool covers 2000+ energy efficiency audit reports from more than 800 MSME Units and around 30+ sectors.

Key Features

- *Gap analysis to compare MSME units with peer group benchmarking*
- *Estimation of energy and monitory saving g potential*
- *Logic driven recommendation for improvement of energy efficiency*
- *Performance assessment of common utilities including boiler, pump, motor, compressor furnace*
- *Information about success rate or feasibility of implemented Energy Conservation projects*

Technology Stack

- PHP
- MySQL
- AJAX
- jQuery
- HTML
- CSS
