## PRESS RELEASE

Kolkata, 25<sup>th</sup> August, 2020.

### **INT awarded project of designing & developing a user friendly, smart, and highly secured portal for Student Police Cadet Programme**

INT. or Indus Net Technologies added another feather in its cap, with bagging the pride project from the Bureau of Police Research and Development under the Ministry of Home Affairs, Government of India.

INT. has been awarded the project of designing and developing a user friendly, smart, and highly secured portal for the department's flagship Student Police Cadet Programme. This website will be strictly developed under the GIGW (Government of India Guideline for Website Development).

According to INT. Founder & CEO Abhishek Rungta, **"The portal is aimed towards students who wish to join the Police Cadet Programme. The main objective of this programme is to motivate school-going children to become responsible citizens"**. The programme includes classroom as well as field exercises for the students to learn about general safety and harmony in the society, environmental protection, along with sports and physical activities. Abhishek further states, **"Today's students are our future, and we should inculcate healthy values, civic sense for them to become better citizens."**

INT already being experienced in developing portals for various Government offices, such as MyGov, Election Commission of India, Lok Sabha, Ministry of HRD among others, was the obvious choice for this project. The project is presently at the development stage.
