

Indus Net Technologies appraised at CMMI (Capability Maturity Model Integration) level 3

Kolkata 14th February, 2017: Indus Net Technologies announced that it has been appraised at level 3 of the CMMI Institute's Capability Maturity Model Integration (CMMI) ®. **Greenfield Solutions-Transition Partner of the CMMI® Institute provided us CMMI® related consulting, training, and appraisal services.**

CMMI is a capability improvement framework that provides organizations with the essential elements of effective processes that ultimately improve their performance. An appraisal at maturity level 3 indicates the organization is performing at a "defined" level. At this level, processes are well characterized and understood, and are described in standards, procedures, tools, and methods. The organization's set of standard processes, which is the basis for maturity level 3, is established and improved over time.

Mr. Abhishek Rungta, CEO, Indus Net Technologies, said *"Marking this major milestone is a proud moment for our entire company. We are encouraged to take our performance to the next level of service dedication in terms of work expertise."* **He further added,** *"This CMMI Appraisal not only helped us improving our quality management and development practices but was also an opportunity for us to develop in-house expertise. Through our continuous strive for quality; we believe we can achieve a higher level of maturity in our CMMI journey."*

One of the fastest growing IT companies in Asia Pacific, Indus Net Technologies caters to every kind of digital service provided. This enables total ownership of project through single point of contact. Strong integration among various components in the digital space ensures better synergy while executing complex projects. This also enables the company to meet tight turnaround time while delivering a project.

This appraisal is the highest form of third party validation being bestowed to Indus Net technologies. With this appraisal, client companies will be further assured of better approach and management of the projects the company undertake. This also instills a sense of credibility for the organization in clients' minds.
