

## **Headline: Indus Net Technologies gets recognised for Mobile Application Development at the coveted CIO Choice 2017**

Mumbai, Maharashtra, India  
January 9, 2017

Premier Internet consulting firm, Indus Net Technologies, a globally leading IT service company, has been awarded the prestigious CIO Choice 2017 recognition in the category of Mobile Application Development. The company delivers technological innovations and believes its core values of integrity, respect and commitment in the business and has been rated among top 100 SME by CRISIL.

Abhishek Rungta, CEO, Indus Net Technologies, said, "We are pleased to have been awarded the CIO Choice recognition for 2017 for our innovative services in Mobile Application Development in Enterprise Mobility for our clients globally. Such faith displayed by fellow CIOs who voted for us in this category inspires us to strive towards achieving a higher level of excellence in the field of information technology."

The winners of CIO Choice 2017 were determined by an independent CIO voting survey from across the country on product performance, customer satisfaction and continued customer service. It is a recognition and validation that CIOs can trust because it is 'By the CIO and for the CIO'. It offers the CIO community an authentic aid to finding and considering the most preferred and stable products, services and solutions.

CIO Choice 2017 Honours and Recognitions were presented in 52 categories, recognising 28 distinct ICT Brands. More than 200 entries were received this year, from a wide array of public and private ICT Vendor companies, both Large as well as Small and Medium Enterprises and from a variety of geographic regions in India.

CIO Choice is a B2B platform created to honour companies for their contribution in the field of ICT solutions. The winning companies represent those products, services and solutions that work relentlessly towards developing a resilient ICT-enabled nation. The winners were determined through an independent CIO survey conducted across the country on product performance, customer satisfaction, and continued customer service. The advisory panel was comprised of industry leaders and CIOs from various fields, including manufacturing, banking, pharma, telecommunication, and marketing. The award was presented in Mumbai at an event attended by several industry leaders from the ICT space.
