

Indus Net Technologies is set to showcase its excellence in Innovative Enterprise Mobility Solutions at MWC 2017

Kolkata, February 20, 2017 – [Indus Net Technologies](#), an eminent name in the global mobility industry is all set, yet again, to participate in The Mobile World Congress (MWC), 2017. This event is scheduled to be held at the Mobile World Capital, Barcelona, Spain, from 27th February to 02nd March, 2017, it is the biggest mobile event in the world. Eminent players in the field of mobile technology come in from all corners of the world to be a part of the same.

Indus Net has been an active participant of this annual event for many years. With their motto “to innovate everyday”, Indus Net Technologies so far has already developed and deployed more than 1000 enterprise apps and is involved in a continuous process of the innovative web and mobile application development.

This time, Indus Net has planned to showcase some of their latest products that would not just reflect the company’s excellence in innovation but would even project their immense passion for technology. The list includes innovative mobile apps related to enterprise communication and collaboration, digital publishing, citizen governance, engergytech etc. Being an industry leader with a unique combination of creativity and technology, Indus Net Technologies caters to a wide range of digital agencies, emerging companies and enterprise clients across various industry verticals like BFSI, Education, E-Governance, MPE, Travel and Hospitality etc., in more than 40 countries. The solutions offered by this company are manifold and are tailored to specific business needs of clients that in turn enable the clients to Save Smarter and Grow Faster.

Apart from developing the web and mobile applications, Indus Net Technologies has also proved its excellence in the field of digital marketing. With its 19+ years of cross-industry experience and technological expertise across all major business functions, Indus Net helps corporations and Governments across the globe embrace the “Nexus of Forces” –Cloud/Web based Custom Application Development, Enterprise Mobility and Digital Marketing services to make their businesses future ready. Aimed at creating value for clients, this MNC operates from Kolkata in India and other global branch offices and delivery centers in India (Chennai, New Delhi and Mumbai), UK, USA, Canada, Singapore, UAE, Saudi Arabia and South Africa The company even offers Dedicated Hiring services for helping businesses to deliver strategic advantage to their respective clients. With affordable engagement models starting at \$15/hour, Indus Net provides an assured ROI for companies looking to leverage disruptive and innovative mobility solutions in the field of Wearable technologies, IoT and VR (mobile gaming). However, leveraging technological expertise to develop best-in-class mobility solutions is what Indus Net Technologies is known for and this is what they are planning to showcase in the upcoming Mobile World Congress.

Summary: Indus Net Technologies, an eminent name in the global mobility industry is all set, yet again, to participate in The Mobile World Congress (MWC), 2017. This event is scheduled to be held at the Mobile World Capital, Barcelona, Spain, from 27th February to 02nd March, 2017.
