

Bringing Fintech to Banks, One App at a Time

Fintech is not the elephant in the room as most BFSI entities still believe. Technology can help even venerable institutions to compete with newer financial institutions and provide services to customers that are on par with the best in the industry.

Challenge

Axis Bank required a mobile app that not only provided a seamless experience for its corporate users, but also ensure security and data privacy.

Solution

- Indus Net Technologies helped Axis Bank to leverage its services with a dedicated corporate mobile app, PayPro.
- PayPro, an iOS and Android app solved the challenge by
 1. Enhancing Axis Bank's competitive edge and customer retention by streamlining its corporate banking services safely and securely
 2. Introducing intuitive authorizations for financial transactions
 3. Bringing security and data privacy to the forefront

Fintech is a powerful tool to boost growth among BFSI entities

- Indus Net has helped several eminent financial organizations to tap into technology to enhance growth and add nuance to services offered.
